Subject: Use of Dept. of Corrections Inmate Details

Chief Wimpy –

I hope you are beginning to get back to normal in Lumpkin County.

In furtherance of our phone conversation of yesterday Department of Corrections Inmate Labor Details are available to Lumpkin County to assist in dealing with the debris issue you are facing.

The best option is probably to simply send GEMA/HS a Request for Assistance detailing what is you are asking for. Provide numbers, locations and a Point of Contact. The Department of Corrections is a great partner and will respond quickly. They have some limitations obviously as they are dealing with inmates. There are requirements for daylight operations and all teams have to be back to the institution by a certain time for head count. If we are dealing with storm debris there normally is no cost to the county like you might incur with litter pick up or grass cutting details. The issue here is timing we would not want to wait too long to make this request.

I have made initial contact with the Dept. of Corrections and they are awaiting the call.

Thanks,

Dawson
